

Supporting Careers Education in Art and Photography

We are constantly discussing the creative roles that are needed in everything that we use, see and do. We have displays in the department promoting the extensive careers in the arts and try to get X students in to talk to the students about their uni courses and choices. We take the Key stage 5 students to a conference about arts courses and taster sessions at Bucks university. We investigate, read and discuss many art roles and its impact on society, we are passionate about the arts and share this enthusiasm with many students choosing to continue in their chosen creative fields. We have produced fashion designers, entrepreneurs, magazine editors, fashion photographers, architects, interior designers, digital illustrators, tattoo artists and many many more.

P LETS TALK CAREERS 2.pptx **2023 - Why study Art** **Jobs in Art.pdf** **IMG_1863.JPG**

The following careers link with the teaching and learning of each key stage across the curriculum

Key Stage 3	Key Stage 4	Key Stage 5
